Hayland Farm for Sale.

Thirteen Hundred Acres Strong Limestone LAND

WILL be offered at Public Sale by the subscriber on WEDNESDAY, the 23d of February next, if fair, if not the next fair day. This land lies in Anne Arundel county, state of Maryland, within 20 miles of Baltimore, and 25 of Washington city, 10 from Elliott's Mills, 5 from the Frederickstown turnpike road leading to Baltimore, and one and an half from Charles Carrol of Carlton turnpike, which intersects the Frederick-town turnpike. This land lies in one body, the greater part of it in a limestone valley, which is as level as a farmer could desire. This valley abounds with the best never failing springs, and through it runs a delightful stream of water sufficient to drive any kind of water works, and there is enough fall for three mills—It also abounds with the best of timber. There is 100 acres of meadow, a part in grass, and the other ready for seed; there is near four hundred bushels of grain sowed on the land, the greater part is clover hay, and upwards of 300 acres now set in clover. This land is handsomely situated to be divided into four farms; there is at present four settlements on it—the buildings are new, and built upon the most convenient plan, and of the best kind. There is an excellent lime kiln, which burns 1200 bushels of lime, and a good quarry within twenty steps of it. The subscriber will shew the land to any person desirous of purchasing, and will give a good title, and make the payment easy to the purchaser, if he should be a person of good character. The land is well watered, and is said to be one of the handsomest and most fertile farms in Maryland, and is noted for its healthy situation, and no soil is so admirably adapted to the use of plaister and clover. The above land will be divided in lots, or sold together, so as to suit purchasers; two thirds of the purchase money will be required to be paid, when possession is given, which will be the 1st of April, and the residue in one and two years. A further description is deemed unnecessary, as any person wishing to purchase will come and view the property, at which time they will be convinced of its productive nature by the produce which is now on the farm. The property will be shewn by the subscriber, who lives on the premises.

FOR SALE.

THE RUM DISTILLERY.

ON Jones's Falls, known by the name of John Baron's Distillery, one of the most extensive establishments of the kind in the United States, making annually from 90 to 100,000 Gallons of strong 4th proof Rum and where 100 bushels of Grain can be distilled in 24 hours, and with sufficient stores of 300 hhds. molasses, stables, hay loft, Cooper's shop, sheds for wood and carriages, &c. and a dwelling house—the whole in such order as to require no repair of any consequence it is presumed for a long time, and which can be better ascertained by viewing the premises.

It is sold in the present of-antagonus conjuncture for establishment of that kind, for no other reason than the weak constitution of Mr. John Baron, which does not permit him to follow any longer this line of business. He will nevertheless let the purchaser or such person as may be appointed for the purpose, know all his processes to extract from the molasses all the spirit it is susceptible to yield, and to make the 4th proof rum generally known under the appellation of *Baltimore 4th proof Rum*, which by the price it has constantly obtained, has given to the establishment an advantage over all the other Distilleries of the country, of not less than 12 cents but oftener of 16 and 20 cents per gallon of 1st proof, which can be satisfactorily demonstrated to persons inclined to purchase.

Possession may be given immediately by the purchasing at prime cost the stock on hand of Rum, of wood, or immediately after the same will be consumed or distilled.

Terms of sale will be accommodating and proposals received by

JOHN CARRERE, East street.

Of certain modern errors in the Science of Physic—by the same Author.

In the introduction to the former of the above works, a new and not uninteresting view is presented of the principles of Animation, and a full and liberal examination of the doctrine advocated by the late celebrated Dr. Rush, on the *Unity* of disease, is offered to the decision of the Medical Public.

The object of the latter is an attempt to indicate to the discriminating and ingenious mind, the distance between *cases* and *facts*, between *experiments* as they are detailed and *relations* as they exist, between gratuitous *hypothesis* and critical *Philosophy*.
