## Swaim's Panacea.

FOR THE CURE OF

*Scrofula or King's Evil, Syphilitic and Mercurial* Diseases, Rheumatism, Ulcerous Sores, White Swellings, Diseases of the Liver and Skin, General Debility, and all diseases which originate from impure blood or indiscretion of Youth, and where the constitution has been broken down by the use of Mercury, Arsenic, Bark or Quinine, &c, and most internal diseases where the Lungs and chest are supposed to be affected, &c.

In order to make fully known in what estimation Swaim's Panacea is held by the medical profession, the proprietor subjoins certificates from gentlemen who in their private as well as public characters aes deservedly ranked among the most scientific of the profession. The public as well as the proprietor of the Panacea owe much gratitude to the gentlemen who have thus testified in its favour—their recommendations have occasioned its use in various cases of inveterate corruption of the blood, descending to the second generation which otherwise would have destroyed valuable lives. Their humanity and disinterestedness in promoting the currency of a medicine found to be of such great benefit to the human race without regard to its original ownership claims the grateful admiration of a beneficent public.

This medicine has the singular fortune a just tribute to its great merit, of being recommended by the most celebrated practitioners of medicine in the United States and elsewhere; whereas not one of the spurious mixtures made in imitation of it has the least support from the medical faculty. This fact offers an argument so plain and conclusive that it needs only to be mentioned to enforce conviction.

The false reports concerning this valuable medicine which have been so diligently circulated by certain Physicians must have their origin either in envy or in the mischievous effects of Spurious Imitations.—I leave the public to judge for themselves.

I pledge myself to the public and give them the most solemn assurances, that this medicine does not contain mercury in any form whatever.

**CERTIFICATES**

From Dr. N. Chapman professor of the Institute and of Physic and Clinical Practice in the University of Pennsylvania, President of the Academy of Medicine of Pennsylvania, &c.

I have within the last two years had an opportunity of seeing several cases of very inveterate ulcers which having resisted previously the regular modes of treatment were healed by the use of Mr Swaim's Panacea, and I do believe from what I have seen, that it will prove an important remedy in scrofulous, venereal and mercurial diseases.

N. CHAPMAN, M. D

From Dr. W. Gibson Professor of Surgery in the University of Pennsylvania, Surgeon and Clinical Lecturer to the Alms House, Infirmary &c.

I have employed the Panacea of Mr. Swaim, in numerous instances within the last three years, and have always found it extremely efficacious especially in secondary syphilis and in mercurial disease I have no hesitation in pronouncing it a medicine of inestimable value.

W. GIBSON. M. D

From Doctor Valentine Mott Professor of Surgery in the University of New York Surgeon of the New York Hospital, &c

I have repeatedly used Swaim's Panacea both in the Hospital and in private practice, and have found it to be a valuable medicine in chronic syphilitic and scrofulous complaints & in obstinate cutaneous affections. VALENTINE MOTT, M. D.

CAUTION TO PURCHASERS.

☞ Swaim's Panacea, is in round bottles, fluted longitudinally, with the following words blown in the glass;

*Swaim's Panacea—Philad.*

Having but one label which covers the cork with my own signature on it so that the cork cannot be drawn without destroying the signature without which none is genuine. The medicine may consequently be known to be genuine when my signature is visible, to counterfeit which will be punishable as forgery.

The public are cautioned not to purchase my Panacea except from myself my accredited agents, or persons of known respectability and all consequently will be without excuse who shall purchase from any other persons.

The GENUINE PANACEA may be had wholesale and retail at the proprietor's own prices of HENRY PRICE—who is Sole Agent for Baltimore at the corner of Baltimore and Hanover streets.

## PROSPECTUS

OF A NOVEL & INTERESTING

**Weekly Publication,**

*To be commenced on Saturday, the 6th of July ensuing, to be entitled*

## THE SPY

*IN PHILADELPHIA*

## And Spirit of the Age.

IT is very philosophically observed by Addison, that our greatest pride arises from doing good to each other, or, in other words, from being individually serviceable to society. This can be best effected by a proper application of our intelligences, meting them out according to the necessities of the community, and less lamenting the decline of public virtue than checking the progress of public vice, for vice retarded is virtue advanced. As the direction and discussion of measures of national and state polity are the business of the daily press the full application of Addison's remark is necessarily neglected, and the consequence is, that vice, shielded by wealth and worldly influence, are abroad among the people not only unsuspected, but courted and requited, and that a publication is necessary which will not only detect, but exhibit these wolves in sheep's clothing to public scorn—a mark by which other's will be warned from their intents, and a service be rendered to society. In effecting this object we shall pursue a yet untrodden path, one where the necessary thorn shall be mingled (not concealed) with contrasting flowers The manner of the Spy in Philadelphia shall be perfectly delicate, and uncontaminated by cant or vulgarity its censure shall be judicious, its satire chaste Literature, and the arts shall find in it an untired and zealous friend; Dramatic and Literary criticisms shall meet with most attentive and impartial study; and sketches of the Bar and Pulpit of Philadelphia shall occasionally appear from the pen of competent judges, uninfluenced by personal acquintance or professional attachment, To these recommendations, our Poetical column will add another, which, coming from an already popular source will, we trust, be equal to that of more pretending publications, It is unnecessary to be more explicit, as we presume the want of the proposed journal is not only admitted but generally felt, We therefore place ourselves before the PEOPLE, and relying upon their love of justice and of public virtue await their decision respectfully nut confidently.

## CONDITIONS.

The first number of THE SPY IN PHILADELPHIA will be issued on the first Saturday in July. It will be printed on fine white paper in eight large quarto pages and with good type. As it is intended to render the content worthy of preservation, for amusing or instructive reference, the advantage of the proposed and more portable size will be evident. The terms are $2 per annum, payable in advance, or $2-50 if not paid before the expiration of six months. Agents will be allowed a discount of 10 per cent, on all subscribers they shall obtain on remitting one years's payment in advance or becoming responsible for the same and a gratuitous copy of the paper.

The Spy in Philadelphia will contain humourous engravings after the manner of the celebrated Cruikshank. They will be executed by skillful artists and be accompanied with comic illustrations in prose or verse from the pens of original and competent writers,
