

is divided for agricultural and commercial purposes. If it should include the whole kingdom, it is evidently a strong indication of alarm concerning the deficiency of the stock of grain. In Paris the price of bread had attained a very high price, namely, a franc, or 10d. sterling, for the 4lb. loaf; and the government had in consequence brought into consumption a supply of corn from the public granaries, so as to reduce the 4lb. loaf to 8d. for the poor. About 70,000 individuals, or one-tenth of the population of the capital, were receiving the benefit of this charitable reduction.

The price of Cotton had receded another 8th of a penny, and the sales had been extremely limited, but there was some revival in the demand the last two days.

REVOLUTION IN MEXICO.

By the schooner Shamrock, from Tampico, information is received of a revolution having taken place in the Government of Mexico. On the 30th November a regiment of artillery, and one or two of militia, revolted; and on the 1st of December an action began between them and the government troops, which continued till night. The fight was renewed on the 2d, and continued till 4th in the afternoon, when the rebels got possession of the palace and all the convents. From three to five millions of property was then taken by the casual and victorious soldiers, from the Parian and Portales, and other shops. The leaders of the insurgents were Garcia, (who died of his wounds,) Sorata, the three Tolmas, two Frenchmen and another. The revolution appears to have been completely accomplished in the city; and Guerrera, the opponent of Pedraza at the late election, is at the head of the government. Pedraza had left the city, with some hundred horses and many officers, and is collecting forces in Puebla. It is stated that the new party are acting with much wisdom; so that the result is doubtful.

A letter of the 19th of August, from Sierra Leone, besides mentioning the death of Governor Lumly and others, goes on to state that the mortality among the black inhabitants is frightful. The burying grounds are, evening and morning, filled with victims. Need we add more? We have not revealed all the horrors, but, amidst death we cannot dwell upon iniquity.

An alliance is rumoured between Russia, Prussia, and the Netherlands, to counterbalance one between England, Austria and the Porte. The former to support the war against Turkey, the latter to oppose it. France declares for neutrality. Pretty well, holding the Morca! Bos. Pal.

Accounts say the Emperor of Russia has rejected all offers of mediation between him and the Sultan.

The French Government is sending bakers, butchers, carpenters, masons and blacksmiths to the Morea.—This looks like an intention to hold possession. The Greeks are said to be jealous of their designs, as well as of Capodistria.

Sierra Leone. The London Morning Journal says "It is now the imperative duty of Government to erase from the list of English Colonies the accursed name of Sierra Leone. There is not on the face of the earth a spot where death has committed more ravages, where vice is more triumphant where moral debasement has sunk so low."

THE PACHA OF EGYPT

Mehemet Ali the Viceroy of Egypt, is now about sixty-six years old. He was born of Turkish parents, at Porte Cavallo, near Salonica, in Macedonia. At the time when the French evacuated Egypt, Mehemet first came thither, in the capacity of Colonel of the Janissaries. In the war between the Turks and Mamelukes, he displayed such extraordinary talent and resolution, that the Turkish army elected him for their Chief. The Sultan not only confirmed the choice of the army, but also sent a firman appointing Mehemet Viceroy of Egypt and Arabia, and a more faithful tributary no Monarch ever had. Under his guidance, Egypt has rapidly advanced in improvement and prosperity. The communication with India, by the way of Egypt, has been opened—a Canal has been cut from the Nile to Alexandria, and two passages have also been made through the rocks of the first and second cataract of the Nile. He has erected vast establishments for making salt-petre, gunpowder, cannon and small arms, silk, cotton and sugar, all of which are under the superintendence of Europeans. He has established a library of the best European books on geography, the art military, astronomy, medicine, history, belles lettres and the fine arts. He has established a School in the Palace of Ismail Pacha, for the gratuitous instruction of the

Musliman youth, in the Italian language and the modern sciences. Here also is a Press for printing books in the Turkish, Arabic, and Persian languages, and a weekly newspaper in Italian and Arabic.

Mehemet Ali has two sons living—Ibrahim, (aged about thirty-six), the conqueror of the Wahabic in Arabia, and the late commander in the Morea, and Ismael, the conqueror of Ethiopia.

Our authority for the foregoing statement is our late countryman, George Bethune English, who served in the army of Ismael, as a General of Artillery, in the expedition to Ethiopia.

MR. HEATH'S RESOLUTION.

Offered to the Senate is a most excellent one; and we hope it will be adopted—to be sure it will throw something into the Editors' pockets; but then their bills will be paid by those who expect to be benefited by a "petition to the Legislature." By the existing method of doing business in our Legislature, a man may get a law passed that benefits few but himself; and which, many times, injures a greater proportion than it serves; by the proposed rule every man will have his eyes open on what his neighbour intends petitioning his rulers to do for him; either directly or indirectly, so that few can be injured by the passage of a law under it.

Mr. Harrison has reported a Bill in the Senate of this State, relative to Sheriff's Advertising in the Public Papers in certain cases, similar laws to which exist in every state in the Union.

We presume the nature of this Bill is to do away the advertising of property under execution altogether. But whether the lawyers will be benefited by it, or the Creditors receive as much justice as they do under the present law, we won't say—the Legislature must settle that question. Maybe Mr. Harrison wishes only to obviate a difficulty that occurred in Queen Ann's a year or so ago. We refused to advertise for the Sheriff with whom we had unsettled accounts, unless they paid our fee at the time of advertising, or gave us some responsible person for payment. Was not that right? should a man work for another without prospect of pay, or where the sheriff asserted he was not bound to pay the advertising cost? The facts justice cannot be done to creditors or debtors without the property under execution is advertised, for then, all are enabled to see it; and bidders are brought to the sale which cannot be made concertedly and privately. And we take it, the advertising costs partake of the nature of judicial fees; and are collectable from plaintiff or defendant as such; & besides the large fees accruing to sheriffs fully enable them to pay even out of their own profits the slender costs of publishing.

Timothy Pickering Esq. died on Thursday last, at Salem, aged 84 years.

"The Disowned," by the author of Pelham, is now in the press of Carey, Lea and Carey, of PHILADELPHIA, and will be speedily published.

George R. Richardson, Esq. has been appointed one of the Executive Council, in place of Luke Tiernan, Esq. resigned.

On the subject of refusing to advertise for Sheriffs where the advertising fee was not tendered, nor any responsible person given for payment, we did not rely upon our own knowledge of the law, but consulted a legal character whose opinions are considered as sound as any jurist in the State; and the opinion was, not to trust them where the fee was disputed or in danger. And we have never refused to advertise for any Sheriff where the fee was tendered to us. As long as this subject has been brought under Legislative inquiry, it is well enough to put the matter right as far as we are concerned.

Congress.

We have nothing of importance to offer our readers this week from congress—little seems to be doing there, the Senate is engaged with a bill to distribute a portion of the public revenue to the individual states.

Gen Jackson arrived at Pittsburg on the 20th ult. on his way to Washington.

The Elkton Press has a line about our Paper—we acknowledge it, but know not how to remedy it; the truth is, we are not practical printers enough to give it the best set off—we see the defect but want mechanical knowledge to correct it—we trust to the exertions of those in our employ.

State Assembly.

The Bill incorporating a company to construct a canal through Frederick county has passed the House. Also, the Bill electing one Senator from each county, and one from Baltimore by the people.

Jan. 24. In the House, the petition of John M. Freburger of Talbot was read, praying for divorce; and also petition of Ann Spedden, widow of Robert Spedden to be placed on the pension list. After which, a Bill was read, proposing to instruct our representatives and Senators in Congress to make exertions to get a bill passed by that body relative to the election of president. This is the Second bill of this nature got up by the present Legislature, and will no doubt

employ the time of that body without ever producing any real benefit to the people of Maryland. A communication was also received from the Governor enclosing some resolutions of the South Carolina, Georgia, & Ohio Legislatures, touching the fundamental principles of the federal government, the sovereignty of the States, causes for complaint in infractions of the Constitution and encroachments of the general Government upon State rights, as well as the rights of States to redress their wrongs.

In the senate, Mr. Heath offered the following resolution which was read and ordered to lie on the table:

Resolved, by the General Assembly of Maryland, That when any individual shall intend to apply to the General Assembly, for the passage of any private or special law, or for any act of incorporation, it shall be the duty of such individual, or individuals, and he or they are hereby required to give notice of such intention in writing to party or parties interested, and also by advertisement to be published in one or more newspapers printed nearest to his, or their residence, at least thirty days before the time of such application, in which notice in writing, and advertisement, the nature and object of such contemplated application shall be fairly stated.—And be it resolved, that resolution No. 7, passed at May session 1813, be and the same is hereby repealed.—And be it resolved, that it shall be the duty of the Clerk of the Council to publish annually in the different newspapers of the State, at least sixty days before the meeting of the General Assembly, a copy of this resolution.

Jan. 27. In the House a memorial was read, and referred, from Ira Hill, of Washington County, for a loan of money to establish a Geographical Garden. After which, the Lottery Bill was taken up and amended, so as to permit the sale of foreign tickets in this State. And an order was read, proposing to tax hacks, gigs, coaches, &c. where the cost exceeded \$100. Also, an order to amend the license law, so as to grade a license in proportion to the capital invested in trade.

In the senate the bill relating to the election of president and Vice-President was passed—after which leave was granted to bring in a bill relative to sheriffs' advertising their sales in the public papers.

Jan. 28. In the House the Bill divorcing John Andrews, of Dorset, was read: also a bill to change the mode of appointing the registers of wills in this State.

A petition was also read from Henrietta Booker, of Queen Ann's, praying for relief. After which the committee of Grievances was instructed to inquire into the expediency of prohibiting the use of foreign Law Books in the courts of this state, so as to prevent any decision, judgment or decree of any foreign court or judge, from being cited or referred to as authority in any argument before the courts of this state.

The committee was also instructed to inquire into the propriety of withholding the annual donation of \$20,000 for deepening the Baltimore harbor. A Bill was then reported to prevent any person holding any office in the State, from being an Elector of senate, unless he resign the same before the day fixed for the meeting of the Electors. And a Bill was also reported more effectually to prevent the unlawful exportation of Negroes. A Bill also to improve the Treasury Department by the establishment of a "Peoples' Bank": After which, an order was read and laid on the table, to prevent the introduction of any new business into the House after the 10th of February.

SAD AFFAIR. At Dummerston, Vt. Jan. 19, at a shooting, a rifle was accidentally discharged which passed through the side of a house, through the thigh of a person in one of the rooms, and then through the body of Mr. George Pierce, son of Mr. Samuel Pierce of Westmoreland, aged 26, who was at the time sitting at the table. Mr. P. lived but about one hour.

Mahlon Dickerson, is elected by the legislature of New Jersey, to the Senate of the U. States, in place of Dr. Bateman, resigned—and Theodore Frelingshuysen, is elected for 6 years from the 3rd. of March next.

A Dwarf said to be a native of Mexico only 32 inches high, and 51 years of age, is exhibiting at 50 cents a sight in Augusta. Amongst his performances are dancing, sword and gun exercise, &c.

Campaigns of the British army at Washington and New Orleans, by the author of The Subaltern, is advertised.

On opening the Philadelphia and Easton way mail, at Doylestown, it was discovered to be on fire. Several packages of letters were destroyed: it is supposed the fire was communicated by a segar, whilst changing the mail at the Horsham post office, a few miles from Doylestown.

It may not be generally known, but we state it as a fact, that a very extensive sect as to number, wealth and respectability, have had in contemplation to attempt, at no distant period, the establishment of a NATIONAL RELIGION.—N.Y. paper.

MARRIED

In Bridgeton, N. J. on 29th inst. by the Rev. B. Hoff, ROBERT JOHNSTON, Editor of the Bridgeton Observer, to Miss RUTH ELMER, daughter of the late John Elmer.

DIED.

Of a pulmonary complaint, the 29th inst. Dr. EPHRAIM BATEMAN, in the 39th year of his age, late a member of the Senate of the United States, on the part of New Jersey

ACCIDENT.—We have again to record another death by leaving small children alone in a room where there is fire. On Tuesday last, Mrs. Campbell, who resides in William st, near Pine, N.Y. left her house in the care of three small children. While one of them, a girl about five years of age, was at play near the fire, her frock caught the flame, and before assistance was at hand, the little sufferer was so dreadfully burnt, that she died last evening.

Montreal, Jan. 21.

Horrible Occurrence.—A woman named Judith Couture, a wife of Pierre Guillet, of La Presentation, was committed to the jail of this city, yesterday for having cut the throats of five of her children, one of whom only has died, by the accounts given to us. The unfortunate woman laboured under fits of insanity, in consequence of the death of her husband; during which she became depressed in mind, and affected with the dreadful notion that it would be necessary to commit some horrible murders in order to insure her salvation.

Little Rock, (A. T.) Dec. 22.

DISTRESSING CALAMITY.—On Tuesday last as Mr. Wm. H. Lenox was crossing the Arkansas River about a mile and a half above the Post of Arkansas, in a small canoe, with his wife and two of her daughters by a former husband, the canoe accidentally upset, when within a few feet of the bank, all three of the ladies were drowned. Mr. Lenox with great difficulty succeeded in getting to the shore, but in quite an exhausted state. The bodies of the ladies have not been found when the steam boat passed up. Their names were: Mrs. Drussilla Lenox, and Misses Sarah B. and Jane Hamilton, daughters of the late James Hamilton, Esq. formerly of Cincinnati, Ohio.

W. H. BORDLEY HAS OPENED A

Boarding School for Young Ladies

At Bordlington, three miles from Centreville, Queen Anne's county, Md. The situation is pleasant and the house very commodious—capable of accommodating a large number of boarders.—Persons disposed to patronize the institution, are respectfully requested to forward by mail, as soon as practicable, the number of scholars they can send, as there will be some consequent arrangements to be made.

TERMS.

Instruction in Reading and Writing, Arithmetic, English Grammar, Geography with the use of the Globes, Rhetoric, Moral and Natural Philosophy and History, 140 dollars per annum, including board and washing.

The first quarter bill to be paid in advance, and all other bills quarterly.

N. B. Drawing, French, and Music, will be taught if sufficient encouragement shall be given and they are required.

In view of the above proposals it gives me particular pleasure to acknowledge Mr. Bordley as a pupil of mine during my connexions with Washington College, at Chestertown; and to state that he was graduated with much credit to himself and the institution, at the commencement of 1823. Mr. Bordley is known among his friends to have been strictly attentive to the duties of religion from an early age, and since his entrance into life to have deserved and gained the esteem of every one for his honorable and correct deportment.

I am sure that he will spare no pains to promote the education and improvement of the young ladies who may be confided to his care, and it will accordingly yield me a peculiar gratification to know that his seminary is liberally supported.

FRANCIS WATERS S. T. D. Princess Anne, December 29, 1822.

[From the Camden (S. C.) Journal, Jan 17. Most Melancholy.—With sensations of unmingled sorrow do we perform the task this morning, of announcing the death of Col. Henry G. Nixon. He fell in a duel at 1 o'clock, P. M. on Thursday last, with Major Thomas Hopkins of this District. The contest was near Augusta, Georgia. Nixon at the first fire received the ball of his antagonist in the right breast, and fell instantaneously dead: his own pistol going off harmlessly, while in the struggle of death.
